

## Case Study

### + Commercial Fit-Out & Refurbishment

# GXO Leawood

Supporting GXO, the world's largest pure-play contract logistics provider, SOL Services completed a large-scale refurbishment at the Leawood warehouse, managing a complex and multifaceted project in a live environment.

The project involved installing a new mezzanine floor, allowing GXO to maximise storage and operational efficiency. The office areas were refurbished to create a modern and practical working environment. Energy-efficient LED lighting was installed throughout, reducing energy costs and improving the facility's sustainability credentials.

New racking and ceiling protection were also implemented, ensuring the warehouse met high safety standards while remaining fully operational during the works. This project underscores SOL Services' expertise in delivering complex logistics projects with minimal disruption to ongoing operations, providing a seamless transformation for the client.

**Value**  
£4M

**Duration**  
24 weeks

#### Key Services

- + Office refurbishment
- + New racking and ceiling protection installation
- + Energy-efficient LED lighting upgrades
- + Working within a live environment
